## EDUCATION

---

**B.Eng Computer Engineering**, Covenant University, (CGPA: 4.88/5.0) Expected 2024

Relevant Coursework: Applied Computer Programming, Software Development Techniques, and Software Engineering.

## EXPERIENCE

---

**Open Source Contributor** Oct 2022 - Present  
Chimoney *Remote*

- Became a top contributor in the Chimoney Community by opening 3 pull requests and successfully merging 2 of them with 1 still pending review.
- Developed an API wrapper for the Chimoney API using NodeJs
- Developed a discord bot to allow discord users reward each other with chimoney using Dicord.Js

**Backend Intern** Oct 2022 - Dec 2022  
Hotels NG *Remote*

- Developed a certificate generation solution that increased certificate download speeds by a factor of 3.
- Collaborated with the backend lead to minimize potential bugs by 20% through restructuring of codebase and enhancing development workflows.
- Emerged as a finalist intern amongst 800 other finalists.

## PROJECTS

---

### Chimoney NodeJS API Wrapper.

- Developed a NodeJS tool that simplifies interaction with the Chimoney API, increasing the speed of application development with the API.
- Published an NPM package called Chimoney.js which has over a 100 peak downloads.[\(Check it out\)](#)
- Earned recognition from Chimoney CEO for this open-source contribution.

### Certgo.

- Built an API for a digital certificate management web app with a team of interns, increasing the ease of generation and distribution.
- Implemented API endpoints to generate and download certificates using NodeJS, Express, Puppeteer and MongoDB.
- Implemented testing of API endpoint functionality using Jest and SuperTest libraries.

## TECHNICAL SKILLS

---

<b>Intermediate Proficiency</b>	NodeJS, Express, MongoDB, C, JavaScript, Git, GitHub
<b>Beginner Proficiency</b>	Rust, Python, Typescript, React

## LEADERSHIP

---

- Secretary at Google Student Developer Club, Covenant University. — September 2022 - Present
